Fire Safety Home Checklist

- Make sure candles are placed on non-tip holders. Keep them out of the reach of children and pets.

- Extension cords and multi-plug adapters are used as little as possible.

- Baseboards and portable heaters are away from anything that can burn; furniture, curtains, clothes, etc.

- No smoking in a house. Drowsy or medicated people might forget lit materials.

- Make sure smoke alarms are installed correctly in the home.

- Change batteries every year or when alarm starts beeping signaling the battery is dying.

- Keep cooking area clear of combustibles. If a grease fire occurs, slide lid over pan and turn off burner.

- Cooking food is not left unattended.

- Keep matches and lighters away from children. Store them in a locked compartment.
